

AIA Santa Barbara

A Chapter of the American Institute of Architects

AIA/CES REGISTERED PROVIDER PROGRAM PROVIDER: 3FORM, INC.
PROGRAM: 3FORM1, DEMYSTIFYING RESINS

LENGTH: 1 HOUR

CREDITS: 1 LU HOUR

HSW: YES

SD: YES

Date: September 8, 2010 Time: 12:00pm - 1:00pm

Location: AIA Santa Barbara, 229 East Victoria Street, Santa Barbara, CA 93101

Registration fee: No cost for Members/\$20 Non-Members

Please reply by Friday, 9/3/10 to RSVP@aiasb.com

Presentation Format: The CES facilitator uses a DVD presentation to provide real-world examples of projects that incorporate translucent resins. The presentation demonstrates how resins are being used to solve design problems encountered with traditional materials. And a technical review of material physical properties and comparisons is also provided to help represent material differences.

Description: A guide that provides important background and details on selecting the right translucent polymer materials for architectural design projects.

Learning Objectives:

- Program is designed to provide a fundamental knowledge on translucent material alternatives that are available and used in today's architectural designs.
- The program illustrates how translucent thermoplastic polymers can be used as aesthetic alternatives to more traditional materials.
- the program reviews how polymers are being utilized to remedy key design issues of today: day-lighting, reusable materials, energy efficiency and project economics.
- A review of design polymer considerations covers various technical aspects that are important to achieve successful designs with translucent resin materials.

Presenter by:

3form CES facilitators are trained on CES guidelines and possess excellent presentation skills. Further, 3form CES facilitators are constantly employing their expertise on the subject of material selection on-the-job through regular consultation on significant architectural projects.
